MACEWEN (Gwen) Papers

Extent: 2 boxes

Dates: [196-]-[7-]

Collection consists of audio material, primarily radio broadcasts of shows about MacEwen as well as productions of her work, including her original radio play “The World of Neshiah” (produced in 1967). The material has been digitized from MacEwen-owned reel-to-reel and cassette tapes and put on CDs

Arrangement Note: CD numbers correspond to the order in which they were digitized. Several of the CDs (#2, #8d) have been removed because they do not contain the material listed on the item, but instead have been recorded over, presumably by MacEwen herself, with music. CDs from #6 (“The World of Neshiah”) are in Box 2.

Note: Patron must provide own audio listening equipment.
