Tripe Family Papers, 2016

Dates: 1838-1999 (bulk 1850-1950)

Extent: 27 boxes (4 metres)

Scope and Content:

This collection is comprised of correspondence, documents, photographs and art works, and genealogical materials from England, India, the U.S.A, Cuba, the Philippines, and Canada, dating from 1838-1999, and related to Alfred Tripe (1818-1854), his sister Emily (Tripe) James (1817-1850), their first cousin Mary Broad (Tripe) De Rusett (1820-1898), and their relatives and descendants. Correspondence includes an extended series written 1866-1903 by William Francis James, highlighted by letters during his service with Roosevelt's Rough Riders in Cuba in 1898. Nineteenth-century images include four art works, 100 cartes-de-visite and thirty-three cabinet or larger size family portraits. The genealogical material consists of a comprehensive Tripe pedigree compiled in the 1980s and 1990s, a James Family Tree c1880, and four related pedigrees. The collection also documents the development of a family fairy tale, composed in India in 1878, edited in England c1914, and fully illustrated in Canada in 1992.

Contains Series:

1. Correspondence (Restricted)
2. Transcriptions of Correspondence
3. Documents
4. Images (Photographs and Art Works) & Albums
5. Family Trees
6. Fairy Tale

Custodial History: This collection was donated to the Thomas Fisher Rare Book Library in 2016 by Janet Dewan. It includes both material gathered in the course of family history research by the donor and her parents, Marian F K (Tripe) Ade and Harry F M Ade, and also material preserved by her maternal grandparents, Valentine King Tripe and Ethel Teresa (Davison) Tripe.

Restrictions: Due to the fragility of the paper, the original correspondence in Series 1 is restricted. Transcriptions of all letters are available for consultation, and are listed together in Series 2.

Notes:

The box and file numbers listed in this finding aid should be used in order to request specific materials. Supplementary information assembled by Janet Dewan, about items in the collection and background on the families, is included at the start of Series 2 to 5. However please do not use Janet Dewan's numbering system to request materials.

Because spelling of proper names in original documents is retained, variant spellings are found in this finding aid, and the use of wildcard characters in the 'ctrl + F' feature is recommended.

Series 1: Correspondence (Restricted)		
	Note: What follows are original letters, which have been restricted due to their fragility. Annotated transcriptions of all letters are available in Series 2, filed in the same order as the original correspondence below. *See also Box 22 (ovs) for oversized letters.	
Box: Folder
